

Metamorphosis: A Fusion of Abstract Expressionism & Figurative Portraiture

Ralph Carrafa

20 Jul - 29 Aug, 2017

Each piece in the collection was completed in 2016 and forms part of a larger series of acrylic paintings on canvas.

My first exhibition using this medium is intended to intrigue the imagination and evoke memories. The primary inspiration was the subject that appears in each work and the metamorphosis that takes place within the environment.

These artworks are a fusion of abstract and figurative portraits. My skills come from a diverse background in music, poetry, drawing and painting with no formal training.
